Battery Breakthrough Initiative Application Form

(Developed by Bulletpoint)

1. Applicant Information

Applicant Name:

Organisation Name:

ABN:

Project Title:

Project Location:

Contact Details:

- Name:
- Position:
- Email:
- Phone Number:

Total Project Cost:

Amount of Funding Requested (AUD):

2. Merit Criterion A: Contribution to Program Outcomes and Alignment to Focus Areas

This criterion assesses how well your project contributes to the program outcomes and aligns with focus areas.

2.1 How does your project enhance Australia's battery manufacturing capability and supply chain resilience?

Character limit: 1,500 including spaces

2.2 How will your project contribute to emissions reduction and Australia's decarbonisation pathway?

Character limit: 1,500 including spaces

2.3 Provide a summary of how your project contributes to the commercialisation of battery manufacturing technologies.

Character limit: 1,500 including spaces

2.4 Does your project include innovation in manufacturing techniques? Describe the innovations and their potential impact.

Character limit: 1,500 including spaces

2.5 Focus Area Alignment

Describe the manufacturing process used in your project and how it aligns with one or more of the focus areas (active materials production, battery cell manufacturing, or battery pack assembly).

Character limit: 1,000 including spaces

2.6 Development Pathways

Explain how your project will support the development of sustainable and competitive battery supply chains.

Character limit: 1,000 including spaces

How will your project deliver benefits to local communities, including First Nations groups?

Character limit: 1,000 including spaces

3. Merit Criterion B: Capability and Capacity

This criterion assesses the capability and capacity of the applicant and partners to deliver the project.

3.1 Describe your organisation's expertise and any relevant experience in battery manufacturing or similar projects.

Character limit: 1,500 including spaces

3.2 Provide details on the resources (personnel, physical, and financial) available to successfully deliver the project.

Character limit: 1,500 including spaces

3.3 List any project partners and describe the nature and status of agreements between partners.

Character limit: 1,000 including spaces

4. Merit Criterion C: Project Design, Methodology, Risk, Compliance and Community Benefits

This criterion evaluates the quality of project design, methodology, risk management, and community engagement.

4.1 Provide a detailed project plan, including key activities, milestones, and timelines.

Character limit: 2,000 including spaces

4.2 Describe the current status of the project development (e.g., feasibility studies, engineering design).

Character limit: 1,500 including spaces

4.3 Provide the status of land/facility access, permits, and procurement plans for key components.

Character limit: 1,500 including spaces

4.4 Outline the key risks associated with your project and how these risks will be managed or mitigated.

Character limit: 1,500 including spaces

4.5 Describe how your project engages with local communities, including social benefits and community engagement plans.

Character limit: 1,500 including spaces

5. Merit Criterion D: Financial Viability and Co-funding Commitment

This criterion assesses financial viability and value for money.

5.1 Provide an overview of the financial model, including a breakdown of key costs and contingency plans for overruns.

Character limit: 1,500 including spaces

5.2 Explain how the project will be financed, including co-funding sources and commitments.

Character limit: 1,500 including spaces

5.3 Provide details of any conditional financing or offtake agreements in place.

Character limit: 1,000 including spaces

6. Merit Criterion E: Knowledge Sharing

ARENA places importance on the dissemination of knowledge to benefit the broader industry.

6.1 Describe how the knowledge generated by your project will be shared with industry stakeholders and the broader community.

Character limit: 1,500 including spaces

6.2 Outline your willingness to share project learnings and any knowledge-sharing activities you will undertake.

Character limit: 1,000 including spaces

7. Additional Information

Use this section to provide any other relevant information that supports your application.

Character limit: 1,000 including spaces
